

20 October 1976

MEMORANDUM FOR : 

Frank,

1. Further to our telephone conversation about getting on the DDCI's distribution for sensitive intelligence reports. As you know, we had access to "Blue Stripe" reports through the D/DCI/NI before our shift to the Comptroller's staff. Our office screens all other reporting about the Soviet Union from NSA, DIA, FTD, USN, and the DAO

 This is a fair amount of volume but I was not able to develop any formula that would allow some organization like CRS to selectively route reports to us.

3. Most of the really sensitive DDO reporting should not be routed around too far. I would be satisfied with some arrangement to screen ~~only~~ the sensitive reports in any convenient cubby hole or to have them hand-carried by my secretary in sealed envelopes for return the same day. Nearly any system convenient for you is okay with me. I would not pass the reports on to other members of my office without appropriate concurrences from the originator. Let me know if you need more elaboration.
